

Proposed BID – Baseline Services

Many thanks for helping to establish the baseline position for services in the proposed BID area (map enclosed). Businesses in the area will be voting on proposals to introduce a Business Improvement District in the area which will run for a five year term and it is vitally important that we establish what the starting position is to enable future monitoring of the impact of the BID's investment.

Please complete the following form for your service for the forthcoming financial year as completely as is reasonably possible.

Many thanks for your time.
